

Chapter 5.17

TELECOMMUNICATIONS ORDINANCE

Sections:

5.17.010	Purpose.
5.17.020	Definitions.
5.17.030	Registration and Fees.
5.17.040	Other Remedies.
5.17.050	Registration Required.
5.17.060	Purpose of Registration.
5.17.070	Further Exception to Registration and Application for Permit.
5.17.080	General Duties.
5.17.090	Interference With the Right-of-way.
5.17.100	Damage to Property.
5.17.110	Notice of Work.
5.17.120	One Call Utility Underground Services Alert.
5.17.130	Repair and Emergency Work.
5.17.140	Maintenance of Facilities.
5.17.150	Facility Subject to Inspection.
5.17.160	Relocation or Removal of Facilities.
5.17.170	Abandonment.
5.17.180	Removal of Unauthorized Facilities.
5.17.190	Underground Relocation.
5.17.200	Emergency Removal or Relocation of Facilities.
5.17.210	Damage to Grantee's Facilities.
5.17.220	Restoration of Right-of-way.
5.17.230	Facilities Maps.
5.17.240	Duty to Provide Information.
5.17.250	Grantee Insurance.
5.17.260	General Indemnification.
5.17.270	Performance and Financial Guarantees.
5.17.280	Security Fund.
5.17.290	Construction and Completion Bond.
5.17.300	Acts at Grantee's Expense.
5.17.310	Remedies Cumulative.
5.17.320	Coordination of Construction Activities.
5.17.330	Construction Standards.
5.17.340	Construction Codes.
5.17.350	Construction Permits.
5.17.360	Applications.
5.17.370	Engineer's Certification.
5.17.380	Traffic Control Plan.
5.17.390	Issuance of Permit.

5.17.400	Construction Schedule.
5.17.410	Compliance with Permit.
5.17.420	Display of Permit.
5.17.430	Survey of Underground Facilities.
5.17.440	Noncomplying Work.
5.17.450	Completion of Construction.
5.17.460	Landscape Restoration.
5.17.470	Location of Facilities.
5.17.480	Conduit Occupancy.
5.17.490	Joint Use.
5.17.500	Occupancy of City Owned Conduit.
5.17.510	Compensation for City Property.
5.17.520	Construction Permit Fee.
5.17.530	Regulatory Fees and Compensation Not a Tax.
5.17.540	Fee Review Process.
5.17.550	Context.
5.17.560	Ordinance Not a Contract.
5.17.570	No Waiver.
5.17.580	Penalty.
5.17.590	Severability.

5.17.010 Purpose.

The purpose of this chapter is to:

- (a) Establish a local policy concerning telecommunications providers;
- (b) Establish clear and nondiscriminatory local guidelines, standards and time frames for the exercise of local authority with respect to the regulation of the right-of-way;
- (c) Promote competition in telecommunications;
- (d) Minimize unnecessary local regulation of telecommunications providers;
- (e) Encourage the provision of advanced and competitive telecommunications facilities on the widest possible basis to the businesses, institutions and residents of the City;
- (f) Permit and manage reasonable access to the public right-of-way of the City for telecommunications purposes on a competitively neutral and nondiscriminatory basis;
- (g) Conserve the limited physical capacity of the public right-of-way held in public trust by the City;
- (h) To the extent permitted by law, assure that the City's current and ongoing costs of granting and regulating private access to and use of the public right-of-way are paid by the telecommunications providers seeking such access and causing such costs;
- (i) Assure that all telecommunications carriers providing facilities within the City comply with the ordinances, rules and regulations of the City;
- (j) Assure that the City can continue to fairly and responsibly protect the public health, safety and welfare;
- (k) Enable the City to discharge its public trust consistent with rapidly evolving federal and state regulatory policies, industry competition and technological development. (Ord. 17759 §1; November 13, 2000).

5.17.020 Definitions.

Terms used in this chapter shall have the following meanings. Unless otherwise expressly stated, words not defined in this chapter shall be construed consistent with Title 47 of the United States Code, and, if not defined therein, with their common and ordinary meaning.

Affiliate shall mean a Person that (directly or indirectly) owns or controls, is owned or controlled by, or is under common ownership or control with another Person.

City Property shall mean all real property now or hereafter owned by the City whether in fee ownership or other interest.

City shall mean the City of Lincoln, Nebraska.

FCC or Federal Communications Commission shall mean the federal administrative agency, or lawful successor, authorized to regulate and oversee Telecommunications Carriers, Services and Providers on a national level.

Grantee shall mean a permittee or registrant who has been granted certain rights and has had certain obligations imposed upon them pursuant to this chapter.

Nebraska Public Service Commission or PSC shall mean the state administrative agency, or lawful successor, authorized to regulate and oversee Telecommunications Carriers, Services and Providers in the State of Nebraska to the extent prescribed by law.

Overhead Facilities shall mean Utility Facilities and Telecommunications Facilities located above the surface of the ground, including the underground supports and foundations for such facilities.

Person shall mean corporations, companies, associations, joint stock companies, firms, partnerships, limited liability companies, other entities and individuals.

Private Communications System shall mean a facility placed in whole or in part in the right-of-way for the provision of communications in connection with a Person's business, but not encompassing in any respect the provision of Telecommunications Services.

Reseller shall mean any Person who resells a Telecommunications Service, for which it makes a separate charge, provided over a Telecommunications System, where that Person does not own the underlying Telecommunications System used for the transmission.

Right-of-way shall mean the surface of and space above and below any real property in the City in which the City has an interest as an owner or as a trustee for the public for purposes of public travel, as they now or hereafter exist, including, but not limited to, all public streets, highways, avenues, roads, alleys, easements, sidewalks, tunnels, viaducts, or bridges; provided, however, this shall not include other public property for which a separate authorization and agreement to utilize any part of same shall be required from the City.

State shall mean the State of Nebraska.

Surplus Space shall mean that portion of the usable space on a utility pole which has the necessary clearance from other pole users, as required by the orders and regulations of the PSC, to allow its use by a Telecommunications Carrier for a pole attachment.

Telecommunications Carrier shall mean every Person that directly or indirectly owns, controls, operates or manages plant, equipment or property within the City, used or to be used for the purpose of offering Telecommunications Service.

Telecommunications Facilities shall mean the plant, equipment and property within the City used to power, transmit, receive, distribute, provide or offer Telecommunications Service.

Telecommunications Provider shall mean every Person who provides Telecommunications Service over Telecommunications Facilities, including but not limited to persons, cable, gas, water,

wastewater and electric providers that provide Telecommunications Services over Telecommunications facilities. However, other than for purposes of registration, wireless providers and resellers to the extent they do not own telecommunications facilities located in the right-of-way need not comply with the other provisions of this chapter during such time of having no telecommunications facilities in the right-of-way unless applicable law would permit them being subject to the provisions of this chapter.

Telecommunications Service shall mean the providing or offering for rent, sale or lease, or in exchange for other value received, the transmittal of voice, data, image, graphic and video programming information between or among points by wire, cable, fiber optics, laser, microwave, radio, satellite or similar facilities, with or without benefit of any closed transmission medium, but shall not include the provision of cable television service over a franchised cable system or an open video system where an agreement or franchise has been entered into with the City.

Underground Facilities shall mean Utility and Telecommunications Facilities located under the surface of the ground, excluding the underground foundations or supports for Overhead Facilities.

Usable Space shall mean the total distance between the top of a utility pole and the lowest possible attachment point that provides the minimum allowable vertical clearance as specified in the orders and regulations of the PSC, Nebraska Public Works Code, City Public Works Code, National Electrical Safety Code and other applicable Federal, State and local laws and regulations.

Utility shall mean those entities which provide electric, water, wastewater and natural gas service.

Utility Facilities shall mean the plant, equipment and property including, but not limited to, the poles, pipes, mains, conduits, ducts, cables, wires, plant and equipment located under, on or above the surface of the ground within the right-of-way and used or to be used for the purpose of providing Utility Services. (Ord. 17759 §2; November 13, 2000).

5.17.030 Registration and Fees.

Except as otherwise provided herein, all Telecommunications Carriers or Telecommunications Providers engaged in the business of transmitting, supplying or furnishing of Telecommunications Service originating, terminating or existing within the City and using telecommunications facilities in the City shall register with the City pursuant to this chapter and pay a fee of \$200. (Ord. 17759 §3; November 13, 2000).

5.17.040 Other Remedies.

Nothing in this chapter shall be construed as limiting any other remedies that the City may have, at law or in equity, for enforcement of this chapter with respect to right-of-way management. (Ord. 17759 §4; November 13, 2000).

5.17.050 Registration Required.

All Telecommunications Carriers and Telecommunications Providers having Telecommunications Facilities within the corporate limits of the City, in whole or in part, shall register with the City hereunder on forms provided by the Mayor or his or her designee which shall include the following:

- (a) The identity and legal status of the registrant, including any affiliates.
- (b) The name, address and telephone number of the officer, agent or employee responsible for the accuracy of the registration statement.

(c) A description of registrant's existing or proposed Telecommunications Facilities within the City.

(d) Such other information as the City may reasonably require with respect to right-of-way management. (Ord. 17759 §5; November 13, 2000).

5.17.060 Purpose of Registration.

The purpose of registration is to:

(a) Provide the City with accurate and current information concerning the Telecommunications Carriers and Telecommunications Providers who own or operate Telecommunication Facilities within the City and use the right-of-way;

(b) Assist the City in enforcement of this chapter.

Nothing in this chapter shall be construed to authorize the placement of any personal wireless facilities or towers within the right-of-way. (Ord. 17759 §6; November 13, 2000).

5.17.070 Further Exception to Registration and Application for Permit.

(a) A Person which provides Telecommunications Facilities solely for itself, its affiliates or members between points in the same building, or between closely located buildings under common ownership or control, provided that such company or Person does not use or occupy any right-of-way of the City or other ways within the City, is excepted from the registration requirements pursuant to this chapter.

(b) A Person wishing to construct, emplace, operate, replace, reconstruct, or maintain a Private Communications System in the right-of-way must obtain a Permit therefor. The Permit shall only authorize placement of the system in a specific portion of the right-of-way for a limited and specific purpose in connection with the Person's business but not encompassing in whole or in part the carriage of telecommunications for hire in the right-of-way, and for a limited period of time. Such application must be in the form provided for by regulation and must be accompanied by a filing fee, as may be fixed by regulation, promulgated from time to time by the City.

(c) Nothing herein requires the City to apply the provisions of this chapter to itself or to any of its utility divisions if the City determines that it is not in the public interest to do so, and nothing herein shall be read to require the City to comply with this chapter, except that in the event that the City or any of its utility divisions begins providing and thereafter provides, Telecommunication Services to the public, the City and any of its utility divisions shall comply with the provisions of this chapter, except those provisions relating to the posting or depositing of performance or financial guarantees, or the maintenance of insurance. (Ord. 17759 §7; November 13, 2000).

5.17.080 General Duties.

(a) All Grantees, before commencing any construction in the right-of-way, shall comply with all requirements of the Lincoln Municipal Code or other ordinances of the City.

(b) All Grantees shall have no ownership rights in the right-of-way, even though they may be granted a permit to construct or operate their facilities.

(c) Undergrounding requirements for Telecommunications Facilities shall be as provided in applicable City Codes, in this Title 5 and as provided in permits and requirements. (Ord. 17759 §8; November 13, 2000).

5.17.090 Interference With the Right-of-way.

No Grantee may locate or maintain its Telecommunications Facilities so as to unreasonably interfere with the use of the right-of-way by the City, by the general public or other Persons authorized to use or be present in or upon the right-of-way. (Ord. 17759 §9; November 13, 2000).

5.17.100 Damage to Property.

No Grantee or any Person acting on a Grantee's behalf shall take any action or permit any action to be done which may impair, except in accordance with 5.17.130, or damage any right-of-way, or other property located in, on or adjacent thereto. Any and all right-of-way, public property or private property that is disturbed or damaged during the construction, operation or repair of a Telecommunications Facility shall, after notice being given and an opportunity to remedy, be promptly repaired, at the City's option, either by the City and then billed to the responsible person or by the Person that disturbed or damaged the right-of-way, public property or private property. Public property, private property and right-of-way must be restored to a condition as good or better than before the disturbance or damage occurred to the satisfaction of the City. (Ord. 17759 §10; November 13, 2000).

5.17.110 Notice of Work.

Subject to the requirements of Section 5.17.400, no Grantee, or any Person acting on the Grantee's behalf, shall commence any non-emergency work involving undergrounding, excavation or obstructing in or about the right-of-way without two working days advance written notice to the City. Any private property owner whose property will be affected by a Grantee's work shall be afforded the same notice. (Ord. 17759 §11; November 13, 2000).

5.17.120 One Call Utility Underground Services Alert.

Each operator of a Telecommunications System that places facilities underground shall be a member of the One Call Utility established pursuant to Nebraska Revised Statutes Sections 76-2301 et seq. (Ord. 17759 §12; November 13, 2000).

5.17.130 Repair and Emergency Work.

In the event of an unexpected repair or emergency, a Grantee may commence such repair and emergency response work as required under the circumstances, provided the Grantee shall notify the Director of Public Works and Utilities promptly, before such repair or emergency work, or the next business morning thereafter if advance notice is not practicable. (Ord. 17759 §13; November 13, 2000).

5.17.140 Maintenance of Facilities.

Each Grantee shall maintain its facilities in good and safe condition and in a manner that complies with all applicable federal, state and local requirements. (Ord. 17759 §14; November 13, 2000).

5.17.150 Facility Subject to Inspection.

Every Telecommunications Facility shall be subject to the right of periodic inspection by the City, after notification to the Grantee. Each operator must respond to requests for information regarding its system and plans for the system as the City may from time to time issue, including

requests for information regarding its plans for construction, operation, and repair of the right-of-way. (Ord. 17759 §15; November 13, 2000).

5.17.160 Relocation or Removal of Facilities.

Within 120 days, weather permitting, following written notice from the City, or immediately in an emergency, a Grantee shall, to the extent permitted by law, at its own expense, temporarily or permanently remove, relocate, change or alter the position of any Telecommunications Facilities within the right-of-way whenever the Director of Public Works and Utilities shall have determined that such removal, relocation, change or alteration is reasonably necessary for:

(a) The construction, repair, maintenance or installation of any non-competitive City or other non-competitive public improvements in or upon the right-of-way.

(b) The vacation of a public street or the release of a utility easement. (Ord. 17759 §16; November 13, 2000).

5.17.170 Abandonment.

A Telecommunications System operator may abandon any property in place upon written notice to the City or, alternatively at the City's option, the operator may transfer the ownership of the property to the City. However, if the City determines within 90 days of the receipt of notice of abandonment from the operator that the safety, functioning or use of the public right-of-way and facilities in the public right-of-way will be adversely affected, the operator must remove its property by a date specified by the City. (Ord. 17759 §17; November 13, 2000).

5.17.180 Removal of Unauthorized Facilities.

Within thirty days of written notice from the City following such 90-day period, any Grantee, Telecommunications Carrier, Telecommunications Provider or other Person that owns, controls or maintains any unauthorized telecommunications system, facility or related appurtenances within the right-of-way shall, at its own expense, remove such facilities or appurtenances from the right-of-way. If such Grantee, Telecommunications Carrier, Telecommunications Provider or other Person fails to remove such facilities or appurtenances, the City may cause the removal and charge the Grantee, Telecommunications Carrier, Telecommunications Provider or other Person for the costs incurred. A telecommunications system or facility is unauthorized and subject to removal in the following circumstances:

(a) Upon abandonment of a facility within the right-of-way without notice to the City.

(b) If the system or facility was constructed or installed without the prior issuance of a required construction permit.

(c) If the system or facility was constructed or installed at a location not included in the permit.

(d) If the system or facility is not removed after request by the City pursuant to Section 5.17.170. (Ord. 17759 §18; November 13, 2000).

5.17.190 Underground Relocation.

(a) Whenever one or more telecommunications or cable television providers have established facilities located on poles to which overhead electric distribution or transmission facilities are also attached, and such electric facilities are relocated underground at a particular location, all

such providers shall convert existing pole located facilities at such location to underground at the same time.

When the funding for the costs of undergrounding City-owned overhead electric distribution or transmission facilities comes from nongovernmental sources, such funding shall be used to proportionately offset the costs of all providers.

(b) Whenever two or more telecommunications providers or cable television providers have established facilities located on poles on which there are no electric distribution or transmission facilities and one provider determines to relocate underground at a particular location, all such providers shall convert all existing pole located facilities at such location to underground at the same time.

(c) A Grantee or provider shall not be required to relocate, change, or alter their facilities pursuant to subsection (a) unless the relocation activity of the electric distribution or transmission provider :

(i) Is listed on one of annual filings or annual reports made pursuant to Section 5.17.320; and

(ii) Allows the placement of the telecommunication or cable television providers facilities in the same trench or boring of the electric provider.

(d) If a Grantee or provider is required to relocate, change, or alter their facilities hereunder and fails to do so, the City may cause such to occur and, to the extent permitted by law, charge the provider for the costs incurred. (Ord. 17759 §19; November 13, 2000).

5.17.200 Emergency Removal or Relocation of Facilities.

The City retains the right and privilege, after notifying Grantee, to cut or move any Telecommunications Facilities located within the right-of-way as the City may determine to be necessary, in response to any public health or safety emergency. (Ord. 17759 §20; November 13, 2000).

5.17.210 Damage to Grantee's Facilities.

To the extent permitted by Nebraska law, the City shall not be liable for any damage to or loss of any Telecommunications Facility within the right-of-way as a result of or in connection with any public works, public improvements, construction, excavation, grading, filling, or work of any kind in the right-of-way by or on behalf of the City, provided the City, in nonemergency situations, has first contacted the One Call Utility service. (Ord. 17759 §21; November 13, 2000).

5.17.220 Restoration of Right-of-way.

Restoration shall comply with the following:

(a) When a Grantee, or any Person acting on its behalf, does any work in or affecting any right-of-way, it shall, at its own expense, promptly remove any obstructions therefrom and restore such right-of-way or property to the same, or better than the, condition which existed before the work was undertaken. As used in this section, "promptly" shall mean as required by the City's Director of Public Works and Utilities in the reasonable exercise of the Director's discretion.

(b) If weather or other conditions do not permit the complete restoration required hereunder, the Grantee shall temporarily restore the affected right-of-way or property. Such temporary restoration shall be at the Grantee's sole expense, and the Grantee shall promptly undertake

and complete the required permanent restoration when the weather or other conditions no longer prevent such permanent restoration.

(c) A Grantee or other Person acting on its behalf shall use suitable barricades, flags, flagmen, lights, flares and other measures as required for the safety of all members of the general public and to prevent injury or damage to any person, vehicle or property by reason of such work in or affecting such right-of-way. Such measures shall include, but not be limited to, conformance with the Manual on Uniform Traffic Control Devices standards and other City requirements.

(d) Restoration and repair work shall be the responsibility of Grantee for two (2) years after completion thereof. (Ord. 17759 §22; November 13, 2000).

5.17.230 Facilities Maps.

Each Grantee shall provide the City with two hard copies and one electronic version of an accurate as-built map or maps certifying the location of all Telecommunications Facilities within the right-of-way. Each Grantee shall provide updated as-built maps within thirty days after completing construction and at least annually in electronic format.

The operator of each Telecommunications Facility shall provide a map or maps to the City showing the location of its facilities, in such detail and scale as may be directed by the Director of Public Works and Utilities. New system maps shall be promptly submitted to the City when the facility expands or is relocated. Copies of maps shall be provided on disk, in a commercially available electronic format specified by the Director of Public Works and Utilities. If such maps cannot be provided electronically in the format specified, then Grantee shall reimburse the City for the cost of converting hard copies or another format into that required by the City, as specified in the Fees section or elsewhere in this Chapter. (Ord. 17759 §23; November 13, 2000).

5.17.240 Duty to Provide Information.

Within ten days of a written request from the Mayor or his/her designee, each Grantee shall furnish the Mayor or his/her designee with information sufficient to demonstrate:

(a) That all books, records, maps and other documents maintained by the Grantee with respect to its facilities within the right-of-way have been made available for inspection by the Mayor or his/her designee and the Director of Public Works and Utilities at reasonable times and intervals.

(b) In the event that (a) above requires information that is a business or trade secret and/or proprietary information and the operator wishes to protect the information against disclosure, then operator shall provide said information to the City in a separate envelope marked "Proprietary Information: DO NOT DISCLOSE." The City will exercise good faith efforts to protect the confidentiality of the business or trade secrets or proprietary information that is designated as such; provided, further, that (1) in the event a public disclosure request is made for information marked as proprietary, and if the City Attorney determines that said information may be subject to being disclosed; or (2) the City determines that the information should be disclosed in connection with its enforcement of any provision of this chapter, or in the exercise of its police or regulatory powers; then the City shall notify the operator of the operator's opportunity to seek a protective order from a court with appropriate jurisdiction. In the event that a protective order is not obtained within ten days or such shorter time limitation set forth in State law, then the City may disclose said information. The operator is obligated to reimburse and indemnify the City for all costs, damages and attorney fees that may be awarded or assessed by the court for any actions the City took at the

request of operator or took to attempt to limit such disclosure. (Ord. 17759 §24; November 13, 2000).

5.17.250 Grantee Insurance.

Each Grantee shall secure and maintain the following liability insurance policies insuring both the Grantee and the City, and its elected and appointed officers, officials, boards, commissions, agents, representatives and employees as additional insureds, which insurance shall be maintained for two years after termination of the permit:

- (a) Comprehensive general liability insurance with limits not less than:
 - (1) \$2,000,000 for bodily injury or death to each Person;
 - (2) \$2,000,000 for property damage resulting from any one accident; and
 - (3) \$2,000,000 for all other types of liability.
- (b) Automobile liability for owned, non-owned and hired vehicles with a limit of \$1,000,000 for each Person and \$1,000,000 for each accident.
- (c) Worker's compensation within statutory limits and employer's liability insurance with limits of not less than \$1,000,000.
- (d) Comprehensive form premises-operations, completed operations, products liability, explosions and collapse hazard, underground hazard and products completed hazard with limits of not less than \$1,000,000.
- (e) The liability insurance policies required by this section shall be maintained at all times by the Grantee. Each such insurance policy shall contain the following endorsement:

"It is hereby understood and agreed that this policy may not be canceled nor the intention not to renew be stated until 30 days after receipt by the City, by registered mail, of a written notice addressed to the Mayor or his/her designee of such intent to cancel or not to renew."
- (f) Within sixty days after receipt by the City of said notice, and in no event later than thirty days prior to said cancellation, the Grantee shall obtain and furnish to the City replacement insurance policies meeting the requirements of this chapter. (Ord. 17759 §25; November 13, 2000).

5.17.260 General Indemnification.

In addition to and distinct from the insurance requirements of this chapter, each Grantee hereby agrees to defend, indemnify and hold the City and its officers, officials, boards, commissions, employees, agents and representatives harmless from and against any and all damages, losses, claims and expenses, including reasonable attorneys' fees and costs of suit or defense, arising out of, resulting from or alleged to arise out of or result from the acts, omissions, failure to act or misconduct of the Grantee or its affiliates, officers, employees, agents, contractors or subcontractors in the construction, operation, maintenance, repair, removal and replacement of its Telecommunications Facilities, and in providing or offering telecommunications services over the facilities or network, whether such acts or omissions are authorized, allowed or prohibited by this chapter or by an agreement made or entered into pursuant to this chapter. This section shall not require the Grantee to indemnify or hold harmless the City for any losses, claims, damages, and expenses arising out of or resulting from the sole negligence of the City. (Ord. 17759 §26; November 13, 2000).

5.17.270 Performance and Financial Guarantees.

Before a permit granted pursuant to this chapter or before a registration required by this chapter becomes effective, and as necessary thereafter, the Grantee shall provide and deposit such monies, bonds, letters of credit or other instruments in form and substance acceptable to the City as may be required by this chapter, or by an applicable permit agreement or other applicable code, ordinance, rules or regulations of the City. (Ord. 17759 §27; November 13, 2000).

5.17.280 Security Fund.

Each Grantee shall establish a permanent security fund with the City by depositing the amount of up to \$50,000 with the City in cash, an unconditional letter of credit, or other instrument acceptable to the City, which fund shall be maintained at the sole expense of Grantee so long as any of Grantee's Telecommunications Facilities are located within the right-of-way and for at least two years after removal of its telecommunications facilities. The amount of the security fund may be raised or lowered by the City based on the City's own risk analysis. This security fund shall be separate and distinct from any other bond or deposit required.

(a) The fund shall serve as security for the full and complete performance of Grantee's obligations under this chapter, including any costs, expenses, damages or loss the City pays or incurs because of any failure attributable to the Grantee to comply with the codes, ordinances, rules, regulations or permits of the City.

(b) Before any sums are withdrawn from the security fund, the Mayor or his/her designee shall give written notice to the Grantee:

(1) Describing the act, default or failure to be remedied, or the damages, cost or expenses which the City has incurred by reason of the Grantee's act or default;

(2) Providing a reasonable opportunity for the Grantee to first remedy the existing or ongoing default or failure, if applicable;

(3) Providing a reasonable opportunity for the Grantee to pay any monies due the City before the City withdraws the amount thereof from the security fund, if applicable; and

(4) That the Grantee will be given an opportunity to review the act, default or failure described in the notice with the Mayor or his/her designee.

(c) Grantee shall replenish the security fund within fourteen days after written notice from the Mayor or his/her designee that there is a deficiency in the amount of the fund. (Ord. 17759 §28; November 13, 2000).

5.17.290 Construction and Completion Bond.

Unless otherwise provided in a permit, a bond written by a surety acceptable to the City equal to at least 20% of the estimated cost of constructing the Grantee's Telecommunications Facilities within the right-of-way shall be deposited before a construction permit is issued. The City may elect to raise the amount of the bond depending on the City's analysis of the risk of the project.

(a) The construction bond shall remain in force for two (2) years after substantial completion of the work, as determined by the Director of Public Works and Utilities, including restoration of right-of-way and other property affected by the construction.

(b) The construction bond shall guarantee, to the satisfaction of the City:

(1) Timely completion of construction;

(2) Construction in compliance with applicable plans, permits, technical codes and standards;

- (3) Proper location of the telecommunication facilities as specified by the City;
- (4) Restoration of the right-of-way and other property affected by the construction;
- (5) The submission of "as-built" maps after completion of the work and in a format as required by this chapter;
- (6) Timely payment and satisfaction of all claims, demands or liens for labor, material or services provided in connection with the work. (Ord. 17759 §29; November 13, 2000).

5.17.300 Acts at Grantee's Expense.

Any act that a Grantee is or may be required to perform under this chapter or applicable law shall be performed at the Grantee's expense. (Ord. 17759 §30; November 13, 2000).

5.17.310 Remedies Cumulative.

All remedies under this chapter are cumulative unless otherwise expressly stated. The exercise of one remedy shall not foreclose use of another, nor shall the exercise of a remedy or the payment of liquidated damages relieve any Person of its obligations to comply with its permit. Remedies may be used singly or in combination. In addition, the City may exercise any rights it has at law or equity. Recovery by the City of any amounts under insurance, the performance bond, the security fund or letter of credit, or otherwise, does not limit a Telecommunications System operator's duty to indemnify the City in any way. (Ord. 17759 §31; November 13, 2000).

5.17.320 Coordination of Construction Activities.

All Grantees are required to cooperate with the City and with each other as follows:

- (a) By December 1 of each year, each Grantee shall provide the Director of Public Works and Utilities with a schedule of its proposed major construction activities which may affect the right-of-way for the next year.
- (b) The City shall prepare a one-year repaving plan indicating proposed right-of-way reconstruction, repaving and resurfacing. Such plan shall be updated annually, after receipt of the construction plans of the various Grantees.
- (c) Each Grantee shall meet with the City, other Grantees and users of the right-of-way annually or as determined by the City to schedule and coordinate construction.
- (d) All construction locations, activities and schedules shall be coordinated, as ordered by the Director of Public Works and Utilities, to minimize public inconvenience, disruption or damages.
- (e) Whenever two or more Grantees propose major excavations in the same area within any one year period, the City may require that they jointly excavate to minimize continual disruption to the right-of-way. (Ord. 17759 §32; November 13, 2000).

5.17.330 Construction Standards.

No Person shall commence or continue with the construction, installation or operation of Telecommunications Facilities within the City except as provided in this chapter, provided, however, this chapter shall be in addition to the requirements of the State, County or City Codes, as such was enacted or has or in the future is amended from time to time ("Codes"). In the event of a conflict between the aforesaid Codes and this chapter, on the effective date of this chapter the standards of this chapter shall control. As subsequent amendments may be made to the Codes, any conflicts with

this chapter, shall be resolved in favor of the specific Code amendment. Construction, operation or repair and similar formulations of that term means the named actions interpreted broadly, encompassing, among other things, installation, extension, maintenance, replacement of telecommunication facilities or components, relocation, undergrounding, grading, site preparation, adjusting, testing, make-ready, and excavation. (Ord. 17759 §33; November 13, 2000).

5.17.340 Construction Codes.

Telecommunications Facilities shall be constructed, installed, operated and maintained in accordance with all applicable federal, state and local codes, rules and regulations including, but not limited to, the National Electrical Safety Code. Telecommunications Facilities shall comply with the most recent standards in the Codes. In the event of a conflict between the standards in the Codes, public works standards, other local standards and other chapters and this chapter, on the effective date of this chapter the provisions of this chapter shall apply. As other chapters, public works standards, other local standards are from time to time amended, such amended provisions shall apply as determined by the City. (Ord. 17759 §34; November 13, 2000).

5.17.350 Construction Permits.

No Person shall construct or install any Telecommunications Facilities within the City without first obtaining a construction permit therefore, provided, however:

(a) No permit shall be issued for the construction or installation of Telecommunications Facilities within the City unless the Telecommunications Carrier or Telecommunications Provider has filed a registration statement with the City pursuant to this chapter.

(b) No permit shall be issued to cut any right-of-way, the surface of which is less than two years old, unless the Grantee, to the satisfaction and the dimensions of the Director of Public Works and Utilities, overlays or paves the surface of such right-of-way which is cut by the Grantee. (Ord. 17759 §35; November 13, 2000).

5.17.360 Applications.

The application shall be accompanied by drawings, plans and specifications in sufficient detail to demonstrate;

(a) The location and route of all facilities the applicant proposes to be installed on existing utility poles in the right-of-way.

(b) The location and route of all facilities to be located under the surface of the ground by installer, including line and grade, in locations as decided by the City, along the route which are within the right-of-way.

(c) To the extent such information is made accessible to Grantee, the location of all existing underground utilities, conduits, ducts, pipes, mains and installations which are within the right-of-way along the route proposed by the applicant. If the applicant is aware of other facilities within its proposed right-of-way route, but has not been able to obtain information pertaining to such facilities, the applicant must demonstrate to the City that it made reasonable attempts to obtain such information.

(d) The nature and location of all appurtenances the applicant proposes to place in the right-of-way, either above or below ground in accordance with applicable City Zoning and Planning Code provisions.

(e) The construction methods to be employed for protection of existing structures, fixtures and facilities within or adjacent to the right-of-way.

(f) The location, dimension and types of all trees within or adjacent to the right-of-way along the route proposed by the applicant, together with a landscape plan for protecting, trimming, removing, replacing and restoring any trees or areas to be disturbed during construction.

(g) The applicant must obtain any other requisite and necessary approvals from the City and other utilities or entities before it can locate any facilities, including but not limited to antenna and powering facilities, on any poles in the City. (Ord. 17759 §36; November 13, 2000).

5.17.370 Engineer's Certification.

All permit applications shall be accompanied by the certification of a registered professional engineer that the drawings, plans and specifications submitted with the application comply with applicable technical codes, rules and regulations. (Ord. 17759 §37; November 13, 2000).

5.17.380 Traffic Control Plan.

All permit applications which involve work on, in, under, across or along any right-of-way shall be accompanied by a traffic control plan demonstrating the protective measures and devices that will be employed. (Ord. 17759 §38; November 13, 2000).

5.17.390 Issuance of Permit.

Within a reasonable period of time not to exceed 90 days of time after submission of all plans, documents and any supplemental information required of the applicant and payment of necessary permit fees, the Director of Public Works and Utilities shall issue a permit authorizing construction of the telecommunication facilities, subject to such further conditions, restrictions or regulations affecting the time, place and manner of performing the work as the Director of Public Works and Utilities may deem necessary or appropriate. (Ord. 17759 §39; November 13, 2000).

5.17.400 Construction Schedule.

The permittee shall submit a final written construction schedule to the Director of Public Works and Utilities ten working days before commencing any work in or about the right-of-way. Except in an emergency, the permittee shall further provide written notification to the Director of Public Works and Utilities not less than two working days in advance of any excavation or work in the right-of-way. (Ord. 17759 §40; November 13, 2000).

5.17.410 Compliance with Permit.

All construction practices and activities shall be in accordance with the permit and approved final plans and specifications for the facilities. The Director of Public Works and Utilities and his or her representative shall be provided access to the work. Failure to comply with such requirements may result in an immediate stoppage of work. (Ord. 17759 §41; November 13, 2000).

5.17.420 Display of Permit.

The permittee shall maintain a copy of the construction permit and approved plans at the construction site, which shall be displayed and made available for inspection by the Director of Public Works and Utilities or his designee, City inspection personnel and other pertinent City staff, at all

times when construction work is occurring. Failure to have the Permit or approved plans on-site may result in immediate stoppage of work. (Ord. 17759 §42; November 13, 2000).

5.17.430 Survey of Underground Facilities.

If the construction permit specifies the location of facilities by depth, line, grade, proximity to other facilities or other standards, the permittee, at the discretion of the Director of Public Works and Utilities, shall cause the location of its facilities to be verified by a registered Nebraska land surveyor. The permittee, at its expense, shall relocate any facilities which are not located in compliance with permit requirements. (Ord. 17759 §43; November 13, 2000).

5.17.440 Noncomplying Work.

Upon order of the Director of Public Works and Utilities, all work which does not comply with the permit, the approved plans or specifications for the work or other City requirements shall be removed or cured if allowed by the Director of Public Works and Utilities. (Ord. 17759 §44; November 13, 2000).

5.17.450 Completion of Construction.

The permittee shall promptly complete all construction activities so as to minimize disruption of the right-of-way and other public and private property. All construction work authorized by a permit within the right-of-way, including restoration, must be completed within 180 days of the date of issuance, weather permitting, or at such other interval as the City may specify in writing upon issuance, or prior to expiration, of the permit. (Ord. 17759 §45; November 13, 2000).

5.17.460 Landscape Restoration.

(a) All trees, landscaping and grounds removed, damaged or disturbed as a result of the construction, installation, maintenance, operation, repair or replacement of Telecommunications Facilities, which is done shall, at a minimum, be replaced or restored to the condition existing prior to performance of the work.

(b) All restoration work within the right-of-way shall be done in accordance with landscape plans approved by the Director of Public Works and Utilities. (Ord. 17759 §46; November 13, 2000).

5.17.470 Location of Facilities.

Unless otherwise required in current or future City ordinances regarding underground construction requirements, all facilities shall be constructed, installed and located in accordance with the following terms and conditions:

(a) Telecommunications Facilities shall be installed within an existing underground duct or conduit to the extent technologically and economically practicable.

(b) Subject to the other provisions of this chapter and the City's Zoning Code, Telecommunications Facilities on pole attachments shall be installed to existing utility poles only, and then only if surplus space is available. Notwithstanding the foregoing, no aerial installations may be made in new development areas.

(c) Whenever all existing Telecommunications Facilities are located underground within the right-of-way, additional Telecommunications Facilities shall also be located underground.

(d) All above ground appurtenances shall be properly screened in accordance with applicable provisions of the City's Zoning Code. Such appurtenances may be placed above ground in a dedicated public utility easement ("PUE"), in the right-of-way where no PUE exists, or in City-owned property subject to an easement or other authorization between the Grantee and the City. Siting of such equipment in the public utility easement, public right-of-way, or on City-owned property shall be done in such a manner so that the line-of-sight for traffic along the right-of-way is not impaired, and any negative visual impact on the streetscape is minimized. All above ground appurtenances on a site must be screened, and clustered with other utility equipment where practical. (Ord. 17759 §47; November 13, 2000).

5.17.480 Conduit Occupancy.

In furtherance of the public purpose of reduction of right-of-way excavation, it is the goal of the City to encourage both the shared occupancy of underground conduit as well as the construction, whenever possible, of excess conduit capacity for occupancy of future right-of-way occupants. The Mayor may prohibit emplacement of such facilities along the route or any part thereof for 24 months or after such other, longer period as is necessary to protect the public or to mitigate disruption or damage to the right-of-way. (Ord. 17759 §48; November 13, 2000).

5.17.490 Joint Use.

Situations may occur in the future where the City or its designees may desire to place its own cable, conduit and fiber optic cable in trenches and/or bores opened by Grantees for non-competitive purposes. Therefore, as Grantees undertake construction now or in the future, Grantees shall submit these plans to the City so as to allow the City or any other public entity it may designate, the opportunity to install non-competitive facilities in the areas to be trenched or bored by the Grantees. In addition, Grantees shall cooperate with the City or its designees for non-competitive purposes in any other construction by the Grantees that involves trenching or boring, provided that the City or its designees has first notified a Grantee in some manner that it is interested in sharing the trenches or bores in the area where the Grantee's construction is occurring. Grantee shall allow the City or its designees to lay its cable, conduit and fiber optic cable in the Grantee's trenches and bores, provided it shares incrementally in the cost of the trenching and boring. Any request to install facilities into a trench cannot unreasonably delay Grantee's construction timeline. The City or its designees shall be responsible for maintaining its respective cable, conduit and fiber optic cable buried in the Grantee's trenches and bores under this paragraph. (Ord. 17759 §49; November 13, 2000).

5.17.500 Occupancy of City Owned Conduit.

In furtherance of the same objectives of Section 5.17.480, if the City owns or leases conduit in the path of Grantee's proposed Telecommunications Facilities, and provided it is economically and technologically feasible for Grantee to occupy the conduit owned or leased by the City, Grantee shall be encouraged to occupy the conduit owned or leased by the City in order to reduce the necessity to excavate the right-of-way. (Ord. 17759 §50; November 13, 2000).

5.17.510 Compensation for City Property.

If the right is granted, by lease, to use and occupy City Property which is not right-of-way, for the installation or use of Telecommunications Facilities, the compensation to be paid shall be fixed by the City. (Ord. 17759 §51; November 13, 2000).

5.17.520 Construction Permit Fee.

Prior to issuance of a construction permit, the applicant shall pay a permit fee. The purpose of the construction permit fee shall, to the extent permitted by law, be to recover the City's attributable costs and expenses, including but not limited to the cost of the permit process, plan review, inspectors time and expense, staff time, the costs of consultants and engineers retained by the City, electronic map preparation and conversion when necessary, and street life diminution as a result of permittee's proposed and actual occupancy of the right-of-way. (Ord. 17759 §52; November 13, 2000).

5.17.530 Regulatory Fees and Compensation Not a Tax.

The regulatory fees and costs provided for in this chapter, and any compensation charged and paid for the rights provided for herein, are separate from, and additional to, any and all federal, state, local and City taxes as may be levied, imposed or due from a Telecommunications Carrier or Telecommunications Provider, its customers or subscribers, or on account of the lease, sale, delivery or transmission of Telecommunications Services. (Ord. 17759 §53; November 13, 2000).

5.17.540 Fee Review Process.

Any applicant or Grantee may initiate a review of the fees established in this chapter. Within ten days of notice of the fee determined by the City, applicant or Grantee may request the Mayor evaluate the reasonableness of the fee. (Ord. 17759 §54; November 13, 2000).

5.17.550 Context.

When not inconsistent with the context, words used in the present tense include the future tense, words in the plural number include the singular number, and words in the singular number include the plural number. (Ord. 17759 §55; November 13, 2000).

5.17.560 Ordinance Not a Contract.

The City expressly reserves the right to amend this ordinance from time to time in the exercise of its lawful powers. The provisions of this ordinance shall not be construed to create or be a contract. (Ord. 17759 §56; November 13, 2000).

5.17.570 No Waiver.

The failure of the City to enforce any provision of this chapter on any occasion shall not operate as a waiver or estoppel of this right to enforce any provision of this chapter on any other occasion, nor shall the failure to enforce any prior ordinance or City Charter provisions affecting Telecommunications Facilities or Telecommunications Providers or Telecommunications Carriers act as a waiver or estoppel against application of this chapter or any other provision of applicable law. (Ord. 17759 §57; November 13, 2000).

5.17.580 Penalty.

Any Person found violating, disobeying, omitting, neglecting or refusing to comply with any of the provisions of this chapter shall be guilty of a misdemeanor. Upon conviction any person violating any provision of this chapter shall be subject to a fine of up to five hundred dollars (\$500). A separate and distinct violation shall be deemed committed each day on which a violation occurs or continues. (Ord. 17759 §58; November 13, 2000).

5.17.590 Severability.

If any section, subsection, sentence, clause, phrase, or other portion of this chapter or its application to any Person is, for any reason, declared invalid, in whole or in part by any court or agency of competent jurisdiction, said decision shall not affect the validity of the remaining portions hereof. (Ord. 17759 §59; November 13, 2000).
